

## **FINALLY! RELIEF From Digestive Issues, Joint Pain, and Dull and Thinning Hair!**

Are you one of the **70 million people** in America with digestive issues that ruin your quality of life?

Do digestive problems like **constant indigestion, chronic inflammation** in the intestinal tract, and bloating interfere with enjoying friends and family at special events?

Is joint pain keeping you from an active lifestyle?

Are you suffering from embarrassing dull and thinning hair?

**Imagine finding relief from:**

- **Acid Reflux**
- Constant indigestion
- **Irritable bowels**
- Chronic inflammation in the intestinal tract
- **Bloating**
- Joint Pain
- **Chipping Nails**
- Dull and thinning hair

**EVERY DAY!**

### **Try Collagen Peptides!**

Collagen what? If you're not familiar with Collagen Peptides, you aren't alone!

Unless you've been immersed in the health and beauty industry, this supplement might be foreign to you.

The greatest familiarity that most people have with collagen is in discovering the fountain of youth or the ingredients in cosmetics.

Most people know that collagen helps grow healthier hair, nails, and skin. But how could it possibly benefit your digestive system?

**Notice a Distinct Difference in Just Two to Four Weeks of Daily Use.**

According to The National Ambulatory Medical Care Survey from 2016, over 22 million Americans visited physicians' offices to resolve digestive issues.

The National Institute of Health calculates 60 to 70 million people are affected by a complete array of digestive diseases ranging from minor indigestion to the more serious Crohn's disease.

People everywhere are looking for remedies to aid their digestive problems.

FINALLY, a company with a stellar reputation in the marketplace has researched and developed a phenomenal holistic supplement to rebuild the intestinal walls.

## What Are Collagen Peptides?

Collagen Peptides are digestive enzymes steeped in collagen providing support for a healthy gut, enhancing hair, skin, and nails, easing joint pain, improving metabolism and resolving many digestive difficulties.

To better understand the value of collagen peptides, it helps to first know the importance of collagen in our bodies.

- **Collagen is a protein in the body that provides structure to your skin and keeps our skin “tight”.**
- It is one of the most plentiful proteins the body produces and accounts for about a third of our body’s composition.
- **As we age, our bodies produce less and less collagen which affects our digestive system as well as muscles, skin, bones, blood vessels, and tendons.**

## How?

Get Ready to Feel Better  
in a Matter of Weeks!

Collagen is the “glue” that keeps the walls of our digestive tract together. The more collagen we lose, the thinner those walls become.

Over time, our digestive tract begins to “break away” and creates gaps. Those gaps allow for toxins, undigested foods, and particles to enter our system causing a plethora of digestive issues.

If you’re tired of constant heartburn, incessant acid reflux, irritable bowels, and never-ending, “digestive issues,” try adding collagen to your diet.

**As we grow older, our body produces less and less collagen to keep our digestive system intact.**

Collagen Peptides reintroduces collagen into our system; and replenishes the breakdown in our bodies caused by age, poor eating habits, and stress.

**Who Can You Trust For  
The Best Collagen  
Peptides Supplements?**

Because there are several collagen products available on the market today, choosing the right resource is critical to ensure a successful result.

If you have purchased any type of supplement before, you KNOW that a trusted resource is important to managing your health.

### **Credibility Matters!**

Renowned nutritionist and dietary specialist, Isabel D. Price, sings the praises of Spring of Life, Inc. Her 20+ years of experience in the health and nutrition field demands the highest standard in quality supplements. Spring of Life meets those standards.

More importantly, Spring of Life has a passion to produce the BEST.

Passion for their customer. Passion for their product. Passion for excellent results.

You can trust Spring of Life to deliver the best, at the best time, and in the best way.

## Spring of Life Collagen Peptides

Spring of Life is pleased to announce their product line is growing to include Collagen Peptides!

They recognize that Collagen Peptides are a valuable supplement to enhance your health and beauty needs.

Spring of Life's Collagen Peptides help the digestive tract rebuild the intestinal walls and strengthen and tone the internal "skin" of the digestive process.

**Best of all**, not only will you receive digestive relief from inflammation, indigestion, heartburn, and the like, customers can also look forward to less joint pain, an improved metabolism, and of course, everyone's beauty secret - gorgeous hair, skin, and nails.

After years of research, Spring of Life has developed the perfect Collagen Peptide supplement.

Unlike many others on the market, Spring of Life's Collagen Peptides are:

- Sourced from **grass-fed cows** raised in the USA
- They provide **exceptional quality** over and above many of those already on the market
- Spring of Life's premium Collagen Peptides are: **non-GMO, gluten free, dairy-free, corn-free, and soy-free**
- Each serving contains 22.5 grams of collagen peptides
- Contains **NO fillers or additives** of **any** kind
- AND, Spring of Life Collagen Peptides are **only 70 calories!**

Collagen is the **ONLY** ingredient in Spring of Life's Collagen Peptides supplement and there are **no additional additives or preservatives**.

Many collagen supplements on the market today are difficult to absorb and end up creating even greater digestive issues.

Spring of Life Collagen Peptides are smooth and digestible.

Many collagen supplements on the market today gel when mixed with liquids causing a bad aftertaste and poor absorption.

Spring of Life Collagen Peptides have **no aftertaste** and blend easily in any juices, smoothies, foods, and even water!

Just listen to what people are saying about Spring of Life's Collagen Peptides:

*"Mixes well with literally no taste, which is GREAT! I must say, it's much better tasting than a brand I have tried in the past which is big for me! Little to no taste. It also mixes well with no lumps." —Maureen*

*"I like knowing how clean this product is and how good it is for me." —Stephanie D.*

*"I've tried many collagen powders; and this is my favorite." —Vicki*

*"I usually have a problem with collagen products because of digestion issues. However, I am pleased to say that Spring of Life's Collagen Peptides have met my needs on all levels. I definitely recommend this product to anyone looking to add more collagen in their diet without any side effects." —Design Girl Mom*

*"This is the first collagen peptides I've tried that does not cause GI discomfort. It mixes easily in smoothies, oatmeal, overnight oats, etc." —Edward Bittner*

Spring of Life's Collagen Peptides provide the perfect composition for your digestive system.

Many people believe the only way to help with digestive issues, weight loss, and joint pain is through dangerous medications, harsh dieting, or even surgery.

**STOP!**

**Dangerous surgeries, medications, brutal dieting is NOT the answer!**

Before taking such a drastic step, try adding collagen to your diet.

Adding collagen to your diet every day is a win-win and Spring of Life has made it easy with Collagen Peptides.

### How To Use

Simply add a scoop every day to hot tea, coffee, smoothies, your favorite breakfast food, or just water and enjoy the results!

Adding one scoop to 6-8 ounces of your favorite beverage after exercise every day will also provide joint and muscle support.

Spring of Life's Collagen Peptides offers a powerhouse of healing components and many customers see a difference within two – four weeks of daily use.

If you have not noticed a marked difference within sixty days, return it for a **100% money back guarantee**, no questions asked.

**WE LOVE WHAT WE DO AND YOU WILL LOVE WHAT OUR PRODUCTS DO FOR YOU!**

All Spring of Life products are **100% Satisfaction Guaranteed**.

If for whatever reason you are unhappy with your Spring of Life Product, simply contact customer support within 60 days of your order, send back the product, and receive a complete refund!

Nothing helps heal the digestive system like Collagen Peptides.

### **How Much?!**

As we all know, we get what we pay for!

There are numerous collagen peptides on the market today that cost less; but the question is, “Are they as effective as Spring of Life Collagen Peptides?”

**“How can you be sure Spring of Life Collagen Peptides are better?”**

Research shows that there are many different types of collagen in our bodies. The four primary types account for over 90% of your body's collagen and is critical to providing structure for skin, bones, tendons, cartilage, and teeth.

These types of collagen furnish both densely and loosely packed fibers that delivers structure and elasticity for your body's needs.

Every collagen peptide on the market does not offer all four primary types of collagen necessary to see lasting results.

Spring of Life's Collagen Peptides offer a complete balance of the collagen needed to produce a significant outcome.

A lot of low-cost collagen peptides cut costs to produce an inferior product that does not absorb in liquids.

Most low-cost collagen peptides leave a disgusting aftertaste that discourages daily use.

Many of Spring of Life's customers have attested to the fact that very few on the market have met the absorption needs to easily ingest collagen peptides to their satisfaction.

This was a priority for the Spring of Life team when building the perfect balance for our Collagen Peptides.

After all, what good is an inexpensive collagen peptide if a person can't even swallow or digest it?!?!

Spring of Life's Collagen Peptides offer the best product for the best price along with a 30-day money back guarantee.

Guaranteed quality is worth the price when supplementing your body with one of the most important substances in your digestive system.
